Test log: USAPortfolio (MOB_A2_2527116)

My name is UMURERWA Shenge Appoline.
Registration number: 25/27116 | Verification code: MOB-A2-7116 | App version: 1.0.0

Device: Tecno Spark 8 (physical phone) | **Android version:** 11
Build: EAS preview APK (build 66ad1ba7), installed directly on the phone; Expo Go was not used.
Test date: 12 October 2026 | **Tester:** UMURERWA Shenge Appoline

#	Test	Expected result	Result
1	Install the APK on the phone	Installs without errors	**Pass**
2	Launch the installed app (no Expo Go)	Home screen opens	**Pass**
3	Read first sentence on Home	"My name is UMURERWA Shenge Appoline."	**Pass**
4	Open each bottom tab	Home, Skills, Projects, Edit, About all open	**Pass**
5	Open a project, then press Android Back	Detail opens; Back returns to the Projects list	**Pass**
6	Edit: clear headline and press Save	Field-level error shown; not saved	**Pass**
7	Edit: biography under 40 characters	Field-level error shown; not saved	**Pass**
8	Edit: valid changes and press Save	"Profile saved" message shown	**Pass**
9	Close the app fully and reopen	Saved changes are still shown	**Pass**
10	Take a photo with the camera	Preview shows; photo appears on Home	**Pass**
11	Choose a gallery photo, then cancel once	Cancel message shown; old photo kept	**Pass**
12	Deny camera permission and try again	Clear message; app does not crash	**Pass**
13	Remove photo	Initials avatar returns	**Pass**
14	Restart app after setting a photo	Photo is still shown	**Pass**
15	Reset profile	Defaults restored	**Pass**
16	About screen	App name, name, 25/27116, MOB-A2-7116, version 1.0.0, data-use text	**Pass**
17	Airplane Mode: use every tab	Everything works offline	**Pass**
18	Increase system font size	Text stays readable; nothing cut off	**Pass**

Summary: 18 of 18 tests passed on the installed APK. No failures were recorded.

Note: the profile photo is stored as a local file reference. If Android clears the cache, the app shows initials instead (see README, known limitations).
