Student declaration

My name is UMURERWA Shenge Appoline.

Registration number: 25/27116
Course: Mobile Application Development (SWE 3409), INES-Ruhengeri
Assignment: Individual Assignment 2, My Name Is Personal Portfolio App
App name: USAPortfolio | **Verification code:** MOB-A2-7116

I declare that:

• The application USAPortfolio, its documents and its evidence are submitted by me as my individual work for this assignment.

• The personal information in the app (name, registration number, skills, education and project descriptions) is true and was supplied by me. I have not invented any qualification or project.

• I used an AI assistant (Claude) to help plan and write the source code and documents. This use is fully disclosed in evidence/AI_USE.md.

• I have installed and tested the APK on a physical Android phone, not only in Expo Go, and I can explain how the navigation, profile validation, AsyncStorage persistence and image-picker features work.

• The app stores only low-risk profile data on the device and no passwords, tokens or sensitive personal records. No secrets are included in the repository.

• I understand that the assessor will not repair, rename or debug the submission, and that copying another student's work may be referred for academic integrity review.
